Phone: +92 323 9665583

## PROFILE

---

Motivated Computer Science undergraduate at FAST-NUCES with strong programming, problem-solving, and software development skills. Experienced in academic projects involving basic web development, databases, and introductory AI/ML. Proficient with modern tools and frameworks, translating theoretical knowledge into practical solutions. Quick learner with effective teamwork, communication, and organizational abilities, eager to contribute to real-world projects and grow as a software professional.

## EDUCATION

---

- FAST - NUCES Lahore 2023 - Present  
Bachelor of Computer Science - CGPA: 3.31
- Punjab College of Science 2021 - 2023  
F.Sc Pre-Engineering - Percentage: 93

## SKILLS

---

<b>Languages</b>	Python, C++, SQL
<b>Frameworks</b>	Tensor Flow, Scikit-learn, django
<b>Tools</b>	VS code, Git, GitHub, Google Colab, Figma, Jira, Draw.io
<b>Soft Skills</b>	Team Work , Time Management, Professionalism, Adaptability

## PROJECTS

---

### **FASTConceptPrep | [Link](#)**

- Domain: AI/ML
- A classification system which classifies input questions into respective course, topic and difficulty
- Retrieves questions similar to the input question from the dataset using semantic search
- Implemented 2 ml models, 2 dl models and 1 transformer
- Evaluated models on Accuracy, F1 score, Precision, Exact Match

### **Menz | [Link](#)**

- Domain: Web Development
- E-Commerce Website
- Tech Stack: React, django, PostgreSQL
- Incorporated OOP concepts, design patterns and SOLID principles
- Used Figma for ui

## CO-CURRICULAR ACTIVITIES

---

- Participated in several coding competitions including softec 2025 and CodeRush 2025 in the competitive programming category.
- Participated in some seminars and workshops being held at university.
